

YRC-V5

VACUUM CLEANER

Special for Zirconia
CAD/CAM dental milling machine

PRODUCT FEATURES

Brushless motor and high efficiency fan

Portable, strong suction, port suction up to 24m/s

High vacuum, long lasting

Easy maintenance

Automatic pulse dust removal, can be linked with zirconia lathe

Vacuum Cleaner

Yucera vacuum cleaner has small equipment, strong suction and low operating noise. Through the signal interface, it can be linked with the equipment to realize intelligent start and stop, and automatic pulse dust removal during operation.

Product Advantages

Buckle door design,tight and safe

Easy to operate,one button to open

Multi-stage filtration is adopted to achieve good collection effect and meet the requirements of emission level

Install universal casters,
Weighing and wear-resistant,
Silent design, easy to move

Product Parameters

Equipment size:	380*450*675mm
Weight:	39kg
Electric Current:	4A
Power:	1200W
voltage:	220V
Cleaning method:	Manual cleaning
